

Brigitte Auffret – Deputy Chief Executive Officer

Brigitte Auffret adores opera singing, in which she has been involved since her teenage years. Graduated of the HEC Paris business school, joined Manutan in 1986 after a three-year stint at Monsanto. She began as a management controller and subsequently held different financial positions before being promoted to Group Chief Financial Officer in 2000. In November 2011, she was appointed Deputy Chief Executive Officer. A firm believer in the Group's human values, she has been at the ship's helm since 2013 alongside Xavier Guichard, the grandson and son of the company's founders, and Pierre-Olivier Brial, who is also Deputy Chief Executive Officer.

All you need. **With love.**
